You will be aware of risk assessments and their implications in your case work.
- You will work collaboratively with people using our services, their family, carers, and other supporters as appropriate, to ensure that the outcomes outlined in their individual plans of care and support are being met appropriately, focusing on 'what matters' to the individual.
- You will work in an integrated and multi-disciplinary partnership approach, working with other relevant agencies and professionals in a co-ordinated manner to address the needs of individuals, their families, and carers, and where appropriate other supporters and agencies, including sharing appropriate information in line with the General Data Protection Regulations (GDPR), ensuring confidentiality is maintained where possible.
- You will support and comply with the Directorate's Quality Assurance and Performance Management Frameworks as well as working within the Policies and Procedures of the Directorate and the Council.

- You will maintain up to date recording on the electronic files, and relevant documents as required in line with the Directorates Case Recording Practice guidance.
- You will prepare for and participate in supervision as required by the Directorate's supervision policy. As well as supervision you will prepare and participate in annual appraisals, identifying personal development and training needs to maintain registration requirements along with being responsible for your own performance against agreed targets.
